

Unseen Talent

Mrs Greenwood

What is your role?

Sixth Form Admin Manager

How long have you worked here?

3 1/2 years, based on how many Head Girls I've known!

Where are you based?

I am lucky to be in a pretty special office with a balcony at the back of the 6HUB, at the top of the winding metal staircase near the astro.

Best thing about working at Becky High?

My terrific colleagues and the Sixth Form students who make me laugh every day - it is such a privilege to be part of their Sixth Form experience.

Life before Becky High?

After graduating with a degree in Mechanical Engineering, I joined the graduate training scheme at the Atomic Weapons Establishment in Aldermaston. I went on to work at the Royal Institution, the home of the Christmas Lectures, managing their programme of events dedicated to connecting people with the world of science. I got to organise all sorts of science events including the 'Science of Ice-cream' with Heston Blumenthal. After a move to Switzerland for five years full of mountains, lakes, two small children and cheese, I returned to the UK and entered the world of education.

“

Surprise you? During my first term at university I was awoken in the middle of the night by a policeman kicking open my bedroom door and pointing a gun at my head! They weren't after me, they had got the wrong house!

”
