

Unseen Talent

Tasha Seal

What is your role?

School Librarian.

How long have you worked here?

Almost six years!

Where are you based?

The Library above the new Science Labs and next to the Graphics Room.

Best thing about working at Becky High?

The students and staff, and being able to sit in a room full of books all day!
Bliss!

Life before Becky High!

After graduating with a degree in English, I went on to City University to do an MSC in Information Science. I then joined the graduate trainee programme at City law firm, Freshfields, working in the Tax and Litigation departments. A couple of law firms later I became Library Manager at media law firm, Finers Stephens Innocent for several years. One of the most exciting aspects of the role was doing research for several big media cases, preparing information for TV interviews and meeting the occasional celebrity as they wandered through the Library!

“

Going to university in Bangor, North Wales inspired a love of mountain walking. I have explored some of the UK and Europe's best know trails, getting spectacularly lost in the Picos de Europa! I also love visiting art galleries and spending time with my family and friends.
